PROFESSIONAL SUMMARY

IT Professional with a strong foundation in technical operations, software development, and event production. Experienced in leveraging technologies such as Microsoft operating systems, HTML, CSS, JavaScript, Python, React, and Git/GitHub to support project execution and innovation. Adept at managing large-scale events and implementing creative designs, including advanced lighting and staging solutions. Demonstrates exceptional project management, time management, and problem-solving capabilities in dynamic environments.

- Troubleshooting
- Project Management
- API Development

- Data Analysis
- Web and App Development
- UI/UX Fundamentals

- Generative AI
- HTTP/HTTPS Protocols
- Microsoft Operating Systems

TECHNICAL SKILLS

Programming Languages & Tools: Python, JavaScript, HTML, CSS, Git/GitHub, ChatGPT, React, Hog4 Lighting console, Led and Can Lights, Led Video walls
Cloud and AI: ChatGPT
Operating Systems: Microsoft Operating Systems (Windows 10/11)

TECHNICAL PROJECTS

Recipes: **https://github.com/LiaraLee/Recipes**
A Recipe website for my favorite recipes built using HTML, CSS and JavaScript.

Liara Lee's Library: **https://github.com/LiaraLee/Liara-Lee-s-Library**
A Library website for my favorite books built using HTML, CSS and JavaScript.

PROFESSIONAL SUMMARY

Delivery Driver | Hampton, VA   **April 2023 – Present**
DoorDash/UberEats/GrubHub (Contract)
- Achieved 100% delivery completion rate, maintaining a 4.6-star customer rating through exceptional service and problem-solving skills.
- Ensured 95% on-time or early delivery performance, balancing multiple tasks through effective time management and route optimization.
- Built strong customer relationships by proactively resolving issues, contributing to high customer retention.

Volunteer Lead Production/Stage Design   **December 2017 – June 2018**
Genesis | Spokane, WA
- Directed a team of 20+ volunteers to produce events with 300+ attendees, ensuring seamless execution through planning and communication.

- Designed and built lighted floral arrangements for stages, combining live and artificial plants to create memorable atmospheres.
- Managed event logistics, including set design, scheduling, and post-event teardown, resulting in increased efficiency and participant satisfaction.

Volunteer Tech/Stage Design   **July 2014 – February 2016**
Hillsong | Los Angeles, California
- Installed and operated large-scale lighting systems, ensuring precision and reliability for events hosting 1000+ attendees.
- Designed and executed stage setups with lasers and lighting effects, elevating audience experiences and aligning with event themes.
- Contributed to creative production by conceptualizing entryway and stage floral designs, enhancing visual appeal for conferences and performances.

TECHNICAL TRAINING

NPower | Remote   **9/2024 – 5/2025**
Full Stack Developer Trainee
- Completed an intensive 24-week Full Stack Developer training program, gaining hands-on experience in both front-end and back-end development technologies, including HTML, CSS, and JavaScript.
- Developed proficiency in building responsive and interactive user interfaces using popular front-end frameworks such as React.js, ensuring a seamless user experience across various devices.
- Acquired essential back-end development skills through practical training in server-side scripting with Node.js, utilizing Express.js for efficient routing and building scalable web applications.
- Collaborated with peers on real-world projects, applying Agile development methodologies, version control using Git, and participating in regular code reviews, fostering a collaborative environment.

EDUCATION AND CERTIFICATIONS

Path2TECH App Development Program | NPower | In Pursuit

<u>Certifications Obtained</u>
Git/GitHub Fundamentals Certificate
